MONEY MARKET.

Sales at the Stock Exchange, August 10.

Commercial and Money Matters. Tuesday, P. M.

In our notice a few days since of the corresponden Hope & Co. and Governor McNutt of Mississippi on the question of the State Bonds, a paragraph was quoted from Gov. McNutt which stated that the State Government had from the first protested saction, and therefore the State could not be looked to for the principal or interest. As this may be considered a point of some we give an extract from the Governor's Message of the of the arrangement. After speaking of the State Debt, &c. and the five millions bonds sold to take stock in the Union Bank, the Go-

"To preserve the honor of the state unsulfied, and her credit un-impared, it is of the last importance that the interest should be punc-trally paid at the place designated and ample funds provided for the redemption of the principal."

Again, to prove that this sapient Governor was fully aware of the terms of the sale which he then approved but now cond gire another extract from the Message :

"The commissioners in the sale of the Bonds exceeded togrations, but no doubt obtained as much for them as conject had at the time of the sale. An auxious desire to place it into speedly operation was certainly commendable, but at the me no violation of the charter should have been sanctioned." And still further in his Message of January, 1840, he says:

"The faith of the State is pledged for the whole capital stock, and the property of all her citizens may be eafter be taxed to make up at losses and defalcations," sed then recommends that

"the five millions last issued (the second series) should be called in ad cyncled, and that so more hereafter shall be issued for the Missisppi Union Bank."

And again on the 8th of March, 1840, the Governor issued a Proclamation, stating that it was apprehended that the Bank was about to redeem their own obligations, then at a discount of 40 per cent , with and the State not bound for their redemption;" but in this Pr

State had from the first discounsed the sale of these bonds. At the time of the first Message, the U.S. Bank had paid but two millions or account of the five millions, and had possession of all the bonds ale when matters were in such a situation that the money wight onds pledged in Europe, and then "repudiates." So far from the State repudinting this contract from the first, in January, 1839, five d been received a Committee of the Legislature on the condition the Bank reported, commending the Commissioners for succeeding their mission, (the sale of the Bonds,) against universal expecta enabled to check upon New Orleans at a premium, high enough t-
